

The following bibliography references were extracted from the online bibliography of the *Medieval Pottery Research Group* in February 2005. It is arranged in Country and County order.

For each entry there is an index number. Site name (when recorded) together with a grid reference, followed by the full bibliographic reference. Please note that the way in which the results are generated means that the year of publication has been placed in brackets after the volume number.

For more information about each entry – for example a full list of the other categories of finds from the site, or whether there are illustrations – go to

http://archaeologydataservice.ac.uk/archives/view/mprg_eh_2010/query.cfm

and enter the Index number into the “reference id” box.
